Available as soon as possible · 6-month internship · Convention de stage · Authorised to work in France / EU

PROFILE

MSc Data Analytics for Business student at KEDGE Business School, with banking experience in data engineering and risk analytics. Builds SQL-based ETL pipelines, improves data accessibility and delivers Power BI dashboards that reduce manual reporting for business and regulatory stakeholders.

EDUCATION

MSc — Data Analytics for Business · KEDGE Business School — *Sept 2025 – Apr 2027 · Bordeaux, France*

Bachelor of Technology — Computer Science · SMVITM (VTU) — *Aug 2017 – Aug 2021 · Bantakal, India*

PROFESSIONAL EXPERIENCE

API Developer – Data & Integration · CSB Bank Limited — *May 2024 – Jul 2025 · Mumbai, India*

- Designed and audited 300+ APIs for RBI CSITE regulatory compliance (AES-256, OAuth 2.0, JWT, data masking) across regulated banking datasets
- Conducted EDA in Python and SQL on high-volume transaction data, surfacing risk patterns for credit-risk and regulatory compliance reporting
- Automated quality control checks across banking data pipelines, reducing data errors and improving downstream reporting accuracy
- Built SQL-based ETL pipelines and automated data workflows, sustaining 99.9% data availability across core banking systems
- Increased data accessibility by 40% through structured data modelling and system integration across 300+ API endpoints

Executive Trainee · CSB Bank Limited — *Mar 2023 – May 2024 · Mumbai, India*

- Collaborated with cross-functional teams on banking system integration projects, translating business requirements into technical specifications

Business Analyst · Benchmark Computer Solutions — *Feb 2022 – Nov 2022 · Mumbai, India*

- Translated business requirements into interactive data dashboards and wireframes, improving data accessibility for executive stakeholders

SKILLS

Data Analysis: XGBoost, Scikit-learn, RAG, Machine learning, LLM, Generative AI, Azure OpenAI, Predictive modelling, Data quality, SQL (PostgreSQL, PL/SQL, MySQL), Python (Pandas, NumPy), Data Science, EDA, A/B Testing, Statistical Analysis
BI & Visualisation: Power BI, Tableau, Excel, KPI Dashboard Design, Data Visualisation
Data Engineering: Data Quality Controls, ETL/ELT Pipelines, Data Modelling, Star Schema, Data Integration, Automated Workflows
APIs & Platforms: REST APIs, IBM API Connect, Oracle FlexCube Core Banking, OpenAPI/Swagger, Azure
Security & Compliance: RBI CSITE, VAPT, AES-256, OAuth 2.0, JWT, Data Masking, GDPR, UAT
Methods: Agile, Scrum (PSM I), Git, Requirements Gathering, SRS, Stakeholder Management

PROJECTS

Retail Bank Analytics — dbt Warehouse & Power BI Report — *Oct 2026*
Personal project · SQL, dbt, DuckDB, Power BI (DAX), GitHub Actions

- Modelled 1M+ real Czech bank transactions in dbt (17 models, 55 tests incl. balance reconciliation and a no-leakage check, CI); 10 SQL business questions and a 3-page Power BI report with 21 DAX measures and RLS

Too Good To Go — Supply Chain & Demand Analytics — *Nov 2025*
Academic project · Python, SQL, Power BI, Excel

- Supply-demand gap analysis across 5 city markets; SQL pipeline extracting 3-year seasonal patterns; Power BI dashboard for operational planning recommendations

CERTIFICATIONS & LANGUAGES

Microsoft Certified: Azure AI Fundamentals (AI-900) — Mar 2026
Professional Scrum Master I (PSM I) — Scrum.org, Apr 2026
Google Cloud Computing Foundations — Google, Feb 2026
Associate Data Analyst in SQL — DataCamp, Dec 2025
English C1 · French A2 (en progression — targeting B1) · Hindi Native · Tulu Native
